Insurance Facts:

- **No insurance pays 100% of all procedures.** If your insurance stated they will pay 100% of a procedure, it is based on the insurance company's fee list (called an UCR list) and not the individual dentist's fee list.
- **Your insurance benefit is determined by your specific plan.** We have no input on what your insurance pays for procedures. Insurance companies set their own fee schedules, and each insurance company has a different set of fees and guidelines.
- Each insurance company has a different deductible amount. You have to meet your deductible amount before most insurance companies will pay for any treatment.
